Environmental Opportunities Policy

Issued on the 8th January 2024

Review Date 7th January 2025

Environmental Policy Statement

Advance Engineering UK Ltd specialise in the manufacturing and installation of bespoke steel work.

Advance Engineering UK Ltd environmental aim is to:

1. Meet or exceed the environmental legislation that relates to our business category.
2. Set goals and targets to reduce our impact on the environment.
3. Recognise and actively work to reduce our effect on the environment where possible.
4. Minimise waste by evaluating operations ensuring they are as efficient as possible.
5. Minimise toxic emissions through the selection and servicing of our vehicles and any other engine based equipment.
6. Ensure we are receiving our power from the most cost effective and environmentally sympathetically generated electricity, gas, water etc
7. Actively promote recycling internally, amongst customers and suppliers.
8. Identify and use suppliers who have an environmental policy and build ongoing relationships with said companies.
9. Communicate and train our employees in the way we want our environmental commitments to be achieved.
10. Source a range of local competitively produced materials that minimise our effect on the environment.
11. Identify local suppliers when possible to reduce the amount of transportation and environmental impact of the materials supplied.
12. Identify chemicals that are biodegradable where possible, or make sure that waste residues are disposed of correctly.
13. Empower our employees to actively involve themselves in helping us to be a responsible part of the wider community by highlighting any practices that can be improved or replaced by safer more environmentally sympathetic process or procedure.
14. Use certificated waste handlers for disposal of waste any waste created through the work we undertake.
15. Make this policy available to all of our employees, clients, suppliers, and other interested parties on request.

The policy statement will be reviewed annually and as process changes happen and as legislation or company organisational changes occur.

Mr Rob High has overall responsibility for the Environmental Policy and its implementation within the company and this Environmental Policy will form part of the induction and briefing process for new employees.

Mr. R High

Managing Director
